(a) Parameter distributions
Prior $p(\theta)$
Posterior $p(\theta \mid y)$
$\mathbb{E}[\theta]$
$\mathbb{E}[\theta \mid y]$
Density
Parameter θ
(b) Deterministic model responses
Observations
$f(x, \mathbb{E}[\theta])$
Prior 95% model-response band
$f(x, \mathbb{E}[\theta \mid y])$
Posterior 95% model-response band
y
x
